NEW CASES OF FEVER

Yellow Jack Is Gradually Gaining Ground in the South.

OLD PEOPLE BEING ATTACKED

French Market at New Orleans Now In the Infected District—People Leaving Jackson, Miss., by the Score—More Patients Reported at Mobile and the Railroad Doing Good Business.

NEW ORLEANS, Sept. 15.—The books of the board of health last night showed the following developments in the yellow fever situation. Yesterday there had been reported to the board for investigation 26 cases which the attending physicians considered suspicious. Of these 13 cases had been found suffering with a harmless fever, five cases were regarded as suspicious, but necessary to be further investigated before a definite report could be made upon them; there were no reports as to four cases and four cases had been pronounced genuine yellow fever. The most serious of the cases is located in the neighborhood of the French market. The locality is far from a cleanly one, is populated by a poorer class of people, many of whom are foreigners and might be considered dangerous ground. Officers from the police force were detailed to take charge of the neighborhood.

President Oliphant of the board of health, said: "I repeat what I have said to you heretofore. Of course it is an unpleasant task to have to report the appearance of new cases, but the moment has not yet come when we should throw up our hands and admit that the fever is in a fair way to conquer the city. It will not be surprising and we should not be disappointed if other cases appear daily for some time, how many I am not prepared to say. That is, of course, to be expected from the extended intercourse that has existed between New Orleans and the infected places on the gulf coast and from the fever at Ocean Springs was finally established." One of the features developed during the day is that people of mature age have been attacked. Heretofore the disease has been confined principally to children of tender age and boys and girls not yet grown to manhood and womanhood. Two of the latest cases show that the Louisville and Nashville ran a train to Atlanta yesterday to accommodate the people on the coast in getting away from the infected district. Twenty ladies and gentlemen from Biloxi left this city for that point.

CONDITION AT MOBILE.

Disease Spreading and People Leaving For Points of Safety.

MOBILE, Ala., Sept. 15.—Three new cases of yellow fever were officially announced last night by the board of health. The announcement caused much more alarm than did the discovery of the first case which was regarded as sporadic. The people who can be leaving for points of safety. Some \$700 worth of tickets to Atlanta were sold yesterday by the Louisville and Nashville railroad and the trains are leaving crowded. The same is true of the trains on the Mobile and Ohio railroad. Dr. Gutierrez has left for Edwards, Miss., ordered there to investigate the disease prevailing there. He declined to tell what he had first to report to the surgeon general at Washington. When asked upon what he based his telegram to the surgeon general that there would be a spread of the disease here he said that the city has had a long immunity from the disease and there is much material for it to feed upon.

Fleeing From Jackson.

JACKSON, Miss., Sept. 15.—This is another day of excitement and anxiety to the people of Jackson. The general movement of the people to the surrounding country commenced yesterday and has continued throughout the night and today. This movement is not restricted to any class of people, but is participated in by rich and poor. The city is now surrounded on all sides by an armed guard and the quarantine rules are being enforced with great strictness. The principal cause of alarm to the people of Jackson came from Edwards, only 25 miles distant, where there are now 35 cases of dengue, two cases of yellow fever and three suspects.

CHARLESTON, S. C., TAKES ACTION.

CHARLESTON, S. C., Sept. 15.—The board of health of Charleston has established a strict quarantine against New Orleans, Mobile and the other fever-infested cities and districts. Passengers, household goods and other classes of freight from those places will not be allowed to come into the city in the future.

Ocean Springs.

OCEAN SPRINGS, Miss., Sept. 15.—Dr.

was one of the best of attention and it is hoped he will pull through in a few days. A number of immunes are to be sent to Cincinnati in a special car.

Only Three Have Escaped at Barclay. BARCLAY, Miss., Sept. 15.—Another case of yellow fever was reported last night. One of a population of 35 only three have escaped the sickness and the percentage of death has been what is usual in yellow fever cases.

PRESIDENT ANDREWS.

He Decides to Remain With Brown University—Students Celebrate the Event. PROVIDENCE, Sept. 15.—E. Benjamin Andrews has withdrawn his resignation as president of Brown University. Last night the students celebrated the event, and the university opened today with renewed activity and vigor.

Died From Lockjaw.

PADUCAH, Ky., Sept. 15.—Allie Tidwell, aged 18 years, of this city, who recently joined French's "New Sensation," is dead at Mound City, Ill., from lockjaw. She stepped on a nail a few days ago.

ILLINOIS FEDERATION OF LABOR.

Bitter Resolution on the Hazelton Shooting Referred.

BLOOMINGTON, Ill., Sept. 15.—The Illinois Federation of Labor has referred a set of bitter resolutions, denouncing the killing of the Hazelton miners as brutal slaughter, to a committee.

President Reiffler, in his annual address, said: "Just as long as labor must divide the products of its toil with those who control the opportunities to labor, just so long will millionaires and paupers alike exist in society. Superficial remedies are inadequate to subvert fundamental ills." He recommended the Federation to "take a bold and unequivocal stand in favor of the abolition of land monopoly by levying all taxes upon land values irrespective of improvements and in lieu of all other taxes."

SEARCHING FOR A PIN.

X Rays Used Daily To Locate the Brass In a Child's Body.

WHITE COTTAGE, O., Sept. 15.—Frank Dessein, aged 2, pulled a pin from his mother's dress several days ago and swallowed it. It had an ill effect on him, and the X rays were turned on him in a vain quest for the pin. Up to date it has not been found, but the infant will be X rayed daily until the piece of brass is located. He is being treated at Columbus.

From the other indications, Dr. Harvey Reed and Dr. Early, who have been handling the case, fear that the pin has lodged in the rear of the chest which leads to the stomach. If that case little Frank's back will have to be cut open to get at it.

INVESTIGATING THE PRISON.

Inspector Lester Examining the Books of Frankfort Penitentiary.

FRANKFORT, Ky., Sept. 15.—The governor evidently thinks that there is something wrong with the Frankfort penitentiary and its chair contract. He has issued an order to the state inspector to at once proceed to examine the penitentiary management, books and accounts and to employ an expert accountant to assist him. In speaking of the matter the governor said: "I don't think there is anything wrong, but if there is I want to know it, and know it at once."

Inspector Lester began his work yesterday and as he goes to the bottom of things a sensational report is expected.

Azcaraga Denies the Report. MADRID, Sept. 14.—General Azcaraga, premier and minister of war, denies that the Cuban insurgents have captured San Andres and Cienfuegos or either of them. He also denies that General Laigue has been compelled to retire from Manzanillo.

CHANGED THE COLOR.

Postage Stamps to Be Printed In Green Instead of Carmine.

WASHINGTON, Sept. 15.—The secretary of the treasury and the postmaster general, after consultation with the president, have decided to change the color of the current 2-cent postage stamp from carmine to green of the shade now used on government notes. The 10-cent postage stamp, which is now printed in green will be changed to some other color, possibly carmine. It is thought that green is a more desirable color than carmine, besides saving the government about \$10,000 in the difference in cost between the two inks.

SALISBURY WINS.

Ambassadors Finally Agree to His Proposition on Greco-Turkish Negotiations.

CONSTANTINOPLE, Sept. 15.—At a meeting of the ambassadors of the powers an understanding was reached on the preliminaries of the Greco-Turkish treaty of peace, based upon the Marquis of Salisbury's proposals. These facts have been communicated to the Turkish minister for foreign affairs, Tewfik Pasha, who has been requested to meet the ambassadors at Tophane palace today to resume the formal negotiations for peace.

JUDGMENT FOR PLAINTIFF.

Mrs. Craven Defeated In Her Efforts to Get a Slice of the Fair Estate.

SAN FRANCISCO, Sept. 15.—The famous cases of Angus vs. Craven, by which the executors and heirs of the late Senator James G. Fair sought to quiet the title of Mrs. Nettie B. Craven, a school teacher of this city, to two pieces of property on Sanson and Mission streets, valued at \$1,000,000, was finally decided yesterday by Superior Judge Slack, sitting as a chancellor in equity.

Pension Decision.

WASHINGTON, Sept. 15.—Assistant Secretary of the Interior Webster Davis has rendered a decision in the claim of Mark Sanford, late of Company B, Second U. S. C. L., holding that in all cases where there has been an erroneous or over payment of pension money as a result of fraud upon the government or through a mistake of fact, the same may be recovered by way of reimbursement by withholding any accruing pension until the wrongful payment is made good.

Died Aged 103.

BALTIMORE, Sept. 15.—Miss Sarah Randall died yesterday on the eve of the 103rd anniversary of her birth from the effects of a paralytic stroke. Miss Randall was born in Frederick county, Md., but spent most of her long life in Baltimore. She claimed to have been a relative of the late Samuel J. Randall of Philadelphia. At the time of her death Miss Randall was an inmate of the Methodist Episcopal home for the aged.

Sixty-Eight Miles an Hour. KANSAS CITY, Sept. 15.—A new western record in fast time was made on the Missouri Pacific road yesterday when a new engine, just from the road's own shops made the remarkable speed of 68 miles an hour between here and Sedalia. The speed was only kept up for a short while, but it showed what the new locomotive could do. Considering grades and curves, the performance was even more wonderful.

The Michigan Salt association has advanced the price of salt 10 cents a barrel. Ex-Postmaster General Wilson has been installed as president of Washington and Lee University at Lexington, Va.

New Orleans has been selected as the next place of meeting by the National Board of Sailing Navigators, now in session at New York.

United States government has ordered the flagship Olympia, now stationed at Honolulu, home, the Japanese cruiser Nanawa having returned to Japan.

French imports for the past eight months have increased 12,000,000 francs and exports increased during the same time 2,428,000 francs over the same period for 1896.

Custom officers have been notified that Joseph Ventre, an anarchist expelled from Spain, has arrived in Mexico and will endeavor to reach this country. If he crosses the border he will be deported as an arrested immigrant.

When man lands woman and her charms and virtues, he has in his mind's eye an ideal. That ideal is always a healthy woman. No man makes pretty speeches and witty toasts about woman, with the picture in his mind of a weak, sickly, nervous woman, tortured by pain and suffering from depression and despondency. It is in the power of every woman to be some man's ideal if she will but build up and guard her womanly health.

The best of known remedies for all forms of disease peculiar to women is Dr. Pierce's Favorite Prescription. It works directly on the body and eradicates pain. It soothes the inflamed and purifies the system. It restores complete health to the organs directly feminine and banishes weakness, depression and despondency. It is the discovery of Dr. J. C. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. If you wish to know more about it write to him.

"This is to tell you," writes Sister Rita L. de Falcon, of Corpus Christi, Texas, "that I had been ill for twenty-one years and was finally cured by your medicine, the 'Golden Medical Discovery' and 'Favorite Prescription'."

It is as easy to be well as ill and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines.

Train Crew Held Responsible. CHILLICOTHE, O., Sept. 15.—Coroner Hiram Streitenberger has completed his investigation of the wreck on the Cincinnati, Hamilton and Dayton, where one man was killed and has made out his verdict. He holds the crew of the freight train into which the passenger crashed responsible through their negligence in failing to close a switch.

Weather. Indiana—Fair; continued high temperature. Illinois—Threatening; cooler in western and northern portions. Ohio—Fair; probably warmer in northern portions.

PORT ARTHUR STORM

Half the Town Reported Demolished by the Recent Hurricane.

PEOPLE ARE PANIC STRICKEN

Four Drowned and Five Killed—Many Miraculous Escapes—Several Injured at Winnie, a Nearby Town—Eight Miles of Railway Washed Out—Damage to Crops Is Terrible.

GALVESTON, Sept. 15.—Later and more accurate reports received from points in the storm belt show that the reports that reached Galveston were greatly exaggerated. At Sabine Pass the following are reported as drowned: Captain Greene Moore, Captain L. L. Bettis, Captain George Wolford and Engineer William Ratcliff. These men were all on vessels which were sunk and have not been accounted for, and they are believed to have been drowned.

Along the Gulf and Interstate railway several were injured, but none were killed. At Winnie, George Barber was badly cut about the knees and wrist; Maud Williams had her feet and hands injured; Mrs. Barber's limbs were severely injured and people in the vicinity of Winnie were generally injured, but none killed.

Port Arthur suffered the brunt of the blast and half of the town is estimated to have been destroyed or badly injured. The wind came up about 4 o'clock and rapidly increased in violence, blowing from the south and gradually working into the east. A number of people sought shelter from the storm in the roundhouse of the railroad and several were severely injured and two killed.

Under a restaurant, a small frame structure, three more bodies were found. The wind blew with hurricane force about two hours. There were many miraculous escapes and those who were killed were caught under the ruins of the roundhouse and the small restaurant.

At Sabine Pass the greatest damage was done and the only loss of life was among the shipping. There was no loss of life in either old or new Sabine proper.

The tugs Fannie, Guillote and John P. Smith were sunk, and the Norwegian steamship Ceres, 800 tons was torn from her moorings at the wharf and blown five miles north where she grounded in a few feet of water. When she parted her lines the captain and crew escaped ashore and the vessel was left to the caprice of the wind.

At the new town several residences were blown from their foundations and all hastily constructed buildings were demolished. No one in the town was seriously injured, the casualty being confined to the shipping. Eight miles of the Texas and Sabine railway north of Sabine Pass was washed away. Twenty-five hundred feet of the export pier at Port Arthur is destroyed and the people of that town are so terror stricken that they are leaving it as fast as they can get away.

The damage in the country to buildings and crops is severe. The losses to the farmers in Jefferson county alone will approximate \$150,000, which they would have had in hand within 30 days had the storm been delayed that long, but now the crops are completely ruined.

Burying the Dead. HOUSTON, Sept. 15.—The funeral train bearing the bodies of the victims of the Port Arthur hurricane were taken to Beaumont late yesterday where they were interred. Every business house in the city was closed and nearly the entire population turned out and joined the cavalcade to the cemetery.

SMALL RIOT.

Miners Stoned and Shots Fired—One Man Wounded Probably Die. PITTSBURGH, Sept. 15.—The Darr mine on the Youghiogheny river, operated by Osborne & Saege, of Cleveland, O., was the scene of a riot yesterday which will probably result in the death of at least one man. The machine miners started to work on Monday and yesterday a mob of diggers, who were opposed to the men working, gathered at the pit to give the workers a hot reception when they came out of the mine. As the miners began coming out they were stoned back into the pit and several shots were fired into the pit mouth after the retreating miners. It is the opinion of the police that the riot was a mob of diggers, more daring than the rest, ventured into the opening and was stoned unmercifully. He will probably die from the effects of the abuse.

CHICAGO WHEAT MARKET.

December Takes a Rise but Declines Again at the Close. CHICAGO, Sept. 15.—The opening in wheat yesterday was very strong. December opened at from 95½ to 95½ cents, and during the next half hour fluctuated between the starting quotations and 94½ cents. It started up again from the latter point and rose with the same aggressive persistence. It was very frequently characterized in the last three months, December getting up to 96½ to 97½ cents. The weak closing cables caused a reaction to 95½ cents and when the large visible increase was made known a further decline to 94½ cents ensued. The market closed at 94½ to 94½ cents for December.

SURVIVORS OF THE 82nd IND.

Their Annual Reunion in this City One of
Pleasure and Interest.

Most of the surviving members of the
82nd Ind. who have attended their an-
nual re-union in this city have returned
to their homes. Barring the extremely
hot weather those who were present
say it was one of the most pleasant re-
unions they have ever held.

At their meeting Tuesday afternoon
Dr. W. C. Hall, of Franklin, was elected
President of the Association; Comrade
Lafe O'Neal, of Dupont, Senior Vice-
President; Dr. K. D. Hawley, of Colum-
bus, Junior Vice-President; Alph G.
Hunter, Versailles, Secretary.

The meeting next year will be held
at Chickamauga, on 19th and 20th of
September. Capt. Americus Wheaton,
of Louisville, was appointed a commit-
tee on transportation.

The campfire at Army Hall last
night was attended by members of the
82d and other Union soldiers. A wel-
come address by Mayor Balsley
was full of assurance that the
visiting soldiers were welcome in
Seymour. Dr. Hall responded to the
Mayor's words of welcome.

Interesting addresses and talks were
made by Comrades Jones, McNaughton
DeHoney and Rev. J. W. Clevenger.

At the meeting this forenoon at the
G. A. R. hall the roster of members of
the Association were gone over and
changes noted. Peter Platter, the pho-
tographer, called at the hall and asked
the privilege of photographing the mem-
bers of the 82nd present.

After extending a vote of thanks to
the citizens of Seymour for the hospital-
ity shown them they adjourned to meet
at Chickamauga next year.

MARRIED.

Logan Robinson and Miss Emma
Singer, both highly respected young
people of Driftwood township, were
united in marriage Sunday, September
12, 1897, at the home of the bride's
parents, Morse Sigg and wife, with
Rev. J. N. Thompson the nuptial knot.

Mr. Elmer Shepard and Miss Mir-
netta J. Benton, who are among
Brownstown's most popular young peo-
ple, were united in marriage at 1 o'clock
Wednesday afternoon, September 15,
1897, at the home of the bride's parents,
Coon Benton and wife, with Rev. Thomp-
son, officiating. That their wedded life
may be long and pleasant is the wish of
their host of friends.

Stands at the Head.

Aug. J. Bogel, the leading druggist of
Shreveport, La., says: "Dr. King's New
Discovery is the only thing that cures
my cough, and it is the best seller I
have." J. F. Campbell, merchant of
Safford, Ariz., writes: Dr. King's New
Discovery is all that is claimed for it
it never fails, and is a sure cure for
Consumption, Coughs and Colds. I
cannot say enough for its merits." Dr.
King's New Discovery for Consumption
Coughs and Colds is not an experiment.
It has been tried for a quarter of a cen-
tury, and today stands at the head. It

FIVE MEN LYNCHED.

THEIR BODIES SWING IN THE
EARLY MORNING AIR.

Ripley County Citizens Take the Law
Into Their Own Hands.

Early this morning five men, Lyle
Levi, Bert Andrews, Wm. Jenkins,
Henry Shuter and Clifford Gordon
were taken from the county jail at
Versailles and lynched by a mob.

Lyle Levi was a well-to-do farmer
and an old soldier, aged about 55 years.
His crime is reported to be the hiring
of his horse and buggy to the others
last Saturday night and he had been
arrested on suspicion of his being their
accomplice.

Bert Andrews was a cabinet maker in
a furniture factory at O good Wm
Jenkins was employed in a marble shop
Henry Shuter is the son of a travelling
man for the Deering implements and
is known in Seymour. Clifford Gordon
is a day laborer.

For some time there has been a great
deal of stealing and many petty depred-
ations in the vicinity of Osgood and
Versailles. The officers had almost
entrapped Pete Hostetter, a prize
fighter and member of the gang. In
order to save himself he agreed to
entrap the others in the crowd. Ac-
cordingly the plan was laid to rob
Wooley Bros.' general merchandise
store at Correct, south of Versailles
last Saturday evening. The officers
were notified and caught them in the act.
A lively battle ensued in which Sheriff
Bushong was shot in the hand. The
robbers were arrested and put in the
county jail to await trial. Here they
were found by the mob, which took
them out this morning and hanged
them.

The bodies of the men were riddled
with bullets and Levi is said to have
been killed before the mob was able to
place the rope about his neck.

BUSINESS NOTES.

O. W. Tuders and wife, of Louisville,
came here last evening on business.
George F. Turmail, of Vallonia,
came up last evening on business.
Eli Marquart, of Jonesville, shipped
fat hogs to Cincinnati from here yester-
day.

David Montgomery & Co. last night
shipped a car of extra heavy fat hogs to
Cincinnati.

A very large amount of white oak
logs came here the past week for the
Bard Saw Works.

Repairs at the Hominy Mill have
been completed and the plant resumed
operation this morning.

John Garvey and wife, of Honeytown,
were in the city this morning shopping
and went to the state fair.

Wheat is selling at ninety cents and
corn is selling at twenty-five cents per
bushel in this market today.

Bud Hazard, of Redding township,
yesterday shipped a car of fine water-
melons to Rushville and a car to Marion.

Cordes Bros. & Co. are putting a slate
roof on the large brick residence
of William Kasting, south of the city.

David Easter, a good farmer east of
Reddington, threshed thirty six bush-
els of clover seed from nine acres of
land.

A large amount of nice clear ash tim-
ber is being delivered to the Hub and
Spoke Factory from Driftwood township
farmers.

The Bell's ford bridge was completed
last evening and it is now in condition
to cross. The approaches will be put
in at once.

E. T. Johnson last evening finished
loading sixteen cars of nice white oak
logs at Vallonia for the Band Saw
Works here.

Ebaugh and Johnson, of the tile and
sawmill are delivering material on the
Klinge farm near Dudleytown for the
erection of a tenement house.

William Patrick, who has charge of
the Cummings farm three miles east of
the county seat brought his crop of
clover seed here Tuesday and sold it to
J. H. Hodapp.

The State Fair Attendance.

The attendance at the state fair yester-
day was unusually large for the first
day. The crowd came chiefly from In-
dianapolis, yet all parts of the state
were represented. The attendance dur-
ing the remainder of the week will be
enormous, judging from present indica-
tions. All the railroads are taking large
numbers of people to Indianapolis.

Deafness Cannot Be Cured

By local applications as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the Eu-
stachian Tube. When this tube is in-
flamed you have a humming sound or
imperfect hearing, and when it is en-
tirely closed, deafness is the result, and
unless the inflammation can be taken out
and this tube restored to its normal
condition, hearing will be destroyed
forever; nine cases out of ten are caused
by catarrh, which is nothing but an in-
flamed condition of the mucous surfaces.

We will give One Hundred Dollars
for any case of Deafness (caused by cat-
arrh) that cannot be cured by Hall's
Catarrh Cure. Send for circulars, free.

Sick stomach means sick man (or
woman).

Why not be well?
Sick stomach comes from poor food
poor nourishment, means poor health,
poor comfort. Shaker Digestive Cordial
means health and a well stomach.

If we could examine our stomach we
would understand why it is that so lit-
tle will put it out of order.

But, unless we are doctors, we never
see our stomach. We only feel it. We
would feel it less if we took Shaker Di-
gestive Cordial.

Shaker Digestive Cordial makes your
stomach digest all the nourishing food
you eat, relieves all the symptoms of in-
digestion, acts as a tonic and soon
makes you well and strong again.

The more you take the less you will
feel of your stomach.

Seymour REPUBLICAN.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

MINERAL WATERS.

Why and How They Benefit Those That Drink Them.

When a patient reaches a mineral water health resort, he is examined by the resident physician and ordered to drink certain quantities of the water at certain times during the day. These are increased from day to day until the maximum quantity needed is reached. He is ordered to drink one or two glasses upon rising, two or three glasses between breakfast and dinner, the same quantity in the afternoon and a couple of glasses before going to bed. The patient is urged to take it whether he wants it or not. He may say that he is not thirsty, but that makes no difference; he must take it as a medicine. The quantity is increased until he has known 30 glasses per day to be taken.

A part of the benefit derived is because of the rest and change of scene. A part, perhaps, is from the small quantity of the salts and other bases contained in these waters (we are not speaking of cathartic or chalybeate waters), but the benefit from this source is very slight. The secret of the cure is in the quantity of water taken. If the water be pure, free from organic matter, and taken in sufficient quantity, the results will be substantially the same, regardless of the "traces" of lithia and small quantities of sodium chloride and other salts. You can perform these cures at home with the ordinary drinking water, if of good quality, if you will require the patient to take it in the same quantity as at the springs. It is very easy to add lithia if desired, but you must not lose sight of the fact that the quantity of water (not lithia) taken is the important thing. It acts by flooding the kidneys, by washing out the bladder with a copious, bland and dilute urine, by unclogging the liver and clearing the brain. The patient feels better from day to day; he is better. Irritable bladder is relieved, the kidneys act freely—are "washed out"—and many effete substances are carried out with the flood. This clears the way for the liver to act freely and normally, for there is an intimate relation between the liver and kidneys.—New York Ledger.

The oddest shaped county among the 3,000 which go to make up the separate divisions of the various states is Warren county, Tenn. It lies almost exactly in the geographical center of the state mentioned and is about as near a perfect circle as any division of land could possibly be. The circle would be perfect but for the fact that there is a short stretch of the northern boundary line which follows a small stream for a short distance. It is bounded by Cannon, DeKalb, Coffee, Grundy, Van Buren and White counties and is in no way remarkable except in shape.—St. Louis Republic.

Everybody Says So.

GOVERNMENT CROP REPORT.

No Rain in Indiana During the Past Week.—Hot and Dry.

No rain fell anywhere in Indiana during the week. The nights were cool but the days were very hot. Corn ripened and dried fast; most is safe from frost now; early planted corn is being cut and put in shock; because of so much dry and warm weather just when rain was needed, late planted corn will yield a lighter crop. Much of the tobacco has been housed, but some has been "fired." Buckwheat is a fair crop, cutting has begun in the central portion; in some fields it did not fill well on account of the hot, dry weather. Millet is being cut and threshed. Beans are beginning to ripen and are in fair condition. Potatoes are poor; they are little, with but few in a hill. Sweet potatoes are not in good condition, except in the northern portion, where there are some good fields. Tomatoes are ripening, but the crop is not so good or abundant as last year. Cabbages are drying up, and worms injured them much. Garden truck is drying up much. Apples are still a fair crop in many orchards, and, in localities of the southern portion, there are many good peaches. Turnips are coming up badly. Early sown rye and wheat are coming up in some fields. Plowing is much delayed; the ground is too hard and dry and but little seeding has been done as the farmers are waiting for rain. Clover hulling continues everywhere, yielding good seed. Pasturage is dry and stock water scarce, and stock is being fed on many farms.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney, and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. THEIR QUEER WAY.

ACTORS AND SINGERS AND THEIR REMARKS ON THE CRITIC.

Callous Indifference or Ignorance the Commonest Refuge of the Artistic Nature. Several Cases Cited by the Innocent Reporter.

"There are many amusing things about the artistic temperament," said the innocent reporter, "but you have to know the disposition in order to tell how funny they really are. You must know enough not to believe them always and then through all your intercourse with the professionals there will flow an accompaniment of easy humor that gives acquaintance with these persons an added pleasure. One charming incident of this can always be found in their views of what the newspapers say about them. Mrs. James Brown Potter is the only woman I ever saw who talked frankly about that subject.

"So long as they don't ignore me," she said, "I don't care what they write. Let them say anything so long as they say it, but it would be horrible to be left alone."

"That was a very truthful statement of her own opinions and almost unparalleled in its frankness. Everybody knows that Mrs. Potter has never had very much to thank the newspapers for that was really pleasant, but she had plenty to be grateful for as long as she was willing to should print anything if it kept her in the public eye.

"Almost as genuine was a young American singer who came back here after she had made a debut and some little reputation in Europe. She was a pretty woman and she had a good voice, but she was unfortunate. Once she had a sore throat and another time she was out of condition for some other reason. At all events she was never in condition to do herself justice. So there was nothing pleasant that, even with the kindest intentions, the newspapers could say about the young woman. One night toward the close of the season she was in a grand tier box at the opera house. During one of the entr'actes she was walking about the foyer with a friend, and halted in front of the green-room. "What is that room?" her friend asked. "Planting herself deliberately in front of the partly opened curtains, she said in a voice audible to every man in the room, 'Oh, that is the place they go to write, in the most disagreeable way they can, the most disagreeable things they can think of about you.' The younger singer was unjust, but she had no false vanity. She was willing to have it known that she read what the newspapers said about her. Her more illustrious colleagues are not always so willing to admit that.

"I have heard Mlle. Calve protest that she never saw any newspaper, but the Paris Figaro, and declare that she really had not the slightest idea what New York papers wrote about her. She said this one day while waiting outside of Maurice Grau's office at the Metropolitan, and then turning suddenly to a reporter standing near her asked if he was the man that wrote she had signed a contract to give some concerts at \$2,000 a night when she was really to receive \$2,200. The man did not understand French, so Mlle. Calve's companion translated the question into English. The man replied that he represented another newspaper, and when she turned this into French for Mlle. Calve she mentioned the name of the newspaper from which she had translated the dreadfully erroneous paragraph which had led the public to believe that Mlle. Calve had consented to take \$200 less than she was to get.

"Mme. Eames has an indicated indifference for what the newspapers say which is sometimes a little bit difficult to reconcile with her intimate knowledge of what they publish about her. Mme. Eames is also familiar with them, and she is a little less averse to having that fact known than Mme. Nordica takes her press clippings with her coffee, and she makes no bones of it. Jean de Reszke is a regular reader of what the newspapers have to say about him, and whatever he may think about it in reality, he never, but in one instance, took any notice of it. Plancon enjoys reading the agreeable things that are written about him and doesn't care who knows it. Only the women profess to be wholly ignorant of what the newspapers write.

"With the actresses the case is very much the same. The celebrated foreigners, according to their own accounts, are quite unacquainted with anything that the American press may write about them. Agnes Sorma said that she did not intend to read any of the criticisms of her work until she started home on the steamer. It didn't take a conversation of more than three minutes to show that she had a fairly accurate knowledge of everything that had been printed about her. It must have been some superior sort of clairvoyance that is possible only to the artistic temperament, for hadn't she said that none of them would be read until she had got on the steamer to go to Europe? Sarah Bernhard has them all translated to her and accompanies the performance with more or less emphatic reflections on the intelligence of the writers who do not agree with her own ideas of what she does. It is said that the atmosphere of the Hoffman House was heavily charged with bromine for several days after Mme. Sarah had the New York accounts of her performance of 'Maggie' read aloud to her in English. When the American actors read unfavorable accounts of themselves, they are always able to tell how they came to be written. There is always some specific cause for everything unfavorable. Either they snubbed the writer accidentally or said something disagreeable about him to one of his friends. There is never any explanation beyond their bold truthfulness for the flattering notices that appear.—New York Sun.

To Care For Visitors.

From the many inquiries received regarding the Free Street Fair it is presumed that during the Fair week Seymour will be visited by a vast concourse of people.

As the hotels will be unable to accommodate all the visitors with lodging it is expedient that some other arrangement be made for the entertainment of those who remain with us over night.

Any citizen who is prepared to lodge one or more persons will please report to the management, who will take name and address and make arrangements accordingly.

The Klondyke Country and Colorado.

Are now the two principal gold mining fields in the world. We can give you information about both, but as the Klondyke Country will be impenetrable until next summer, why not go to Colorado this fall and look over the golden opportunities of that state.

It is cheaper and easier to go to Colorado, and we will venture dollars to doughnuts that more net money can be made in Colorado in twelve months, with less capital, than in the outskirts of the Arctic Circle during the same period at forty times the expense.

NEW CASES OF FEVER

Yellow Jack Is Gradually Gaining Ground In the South.

OLD PEOPLE BEING ATTACKED

French Market at New Orleans Now In the Infected District—People Leaving Jackson, Miss., by the Score—More Patients Reported at Mobile and the Railroads Doing Good Business.

NEW ORLEANS, Sept. 15.—The books of the board of health last night showed the following developments in the yellow fever situation. Yesterday there had been reported to the board for investigation 26 cases which the attending physicians considered suspicious. Of these 13 cases had been found suffering with a harmless fever, five cases were regarded as suspicious, but necessary to be further investigated before a definite report could be made upon them; there were no reports as to four cases and four cases had been pronounced genuine yellow fever. The most serious of the cases is located in the neighborhood of the French market. The locality is far from a cleanly one, is populated by a poorer class of people, many of whom are foreigners and might be considered dangerous ground. Officers from the police force were detailed to take charge of the neighborhood.

President Oliphant of the board of health, said: "I repeat what I have said to you heretofore. Of course it is an unpleasant task to have to report the appearance of new cases, but the moment have not yet come when we should throw up our hands and admit that the fever is in a fair way to conquer the city. It will not be surprising and we should not be disappointed if other cases appear daily for some time, how many I am not prepared to say. That is, of course, to be expected from the extended intercourse that has existed between New Orleans and the infected places on the Gulf coast and from the tardiness with which the character of the fever at Ocean Springs was finally established."

One of the features developed during the day is that people of mature age have been attacked. Heretofore the disease has been confined principally to children of tender age and boys and girls not yet grown to manhood and womanhood. Two of the late cases show that older people have been attacked.

CONDITION AT MOBILE

Disease Spreading and People Leaving For Points of Safety.

MOBILE, Ala., Sept. 15.—Three new cases of yellow fever were officially announced last night by the board of health. The announcement caused much more alarm than did the discovery of the first case which was regarded as sporadic. The people who can be left for points of safety. Some \$700 worth of tickets to Atlanta were sold yesterday by the Louisville and Nashville railroad and the trains are leaving crowded. The same is true of the trains on the Mobile and Ohio railroad. Dr. Guiteras has left for Edwards, Miss., ordered thither to investigate the disease prevailing there. He declined to tell what he had first to report to the surgeon general at Washington. When asked upon what he based his telegram to the surgeon general that there would be a spread of the disease here he said that the city has had a long immunity from the disease and there is much material for it to feed upon.

Fleeing From Jackson.
JACKSON, Miss., Sept. 15.—This is another day of excitement and anxiety to the people of Jackson. The general movement of the people to the surrounding country commenced yesterday and has continued throughout the night and today. This movement is not restricted to any class of people, but is participated in by rich and poor. The city is now surrounded on all sides by an armed guard and the quarantine rules are enforced with great strictness. The principal cause of alarm to the people of Jackson came from Edwards, only 35 miles distant, where there are now 35 cases of dengue, two cases of yellow fever and three suspects.

Charleston, S. C., Takes Action.
CHARLESTON, S. C., Sept. 15.—The board of health of Charleston has established a strict quarantine against New Orleans, Mobile and the other fever-infested cities and districts. Passengers, household goods and other classes of freight from these places will not be allowed to come into the city in the future.

Ocean Springs, Miss., Sept. 15.—Dr.

was one of the best of attention and it is hoped he will pull through in a few days. A number of inmates are to be sent to Cincinnati in a special car.

Only Three Have Escaped at Barclay.
BARCLAY, Miss., Sept. 15.—Another case of yellow fever was reported last night. One of a population of 25 only three have escaped the sickness and the percentage of death has been what is usual in yellow fever cases.

PRESIDENT ANDREWS.

He Decides to Remain With Brown University—Students Celebrate the Event.
PROVIDENCE, Sept. 15.—E. Benjamin Andrews has withdrawn his resignation as president of Brown University. Last night the students celebrated the event, and the university opened today with renewed activity and vigor.

Died From Lockjaw.
PADUCAH, Ky., Sept. 15.—Allie Tidwell, aged 18 years, of this city, who recently joined French's "New Sensation," is dead at Mound City, Ills., from lockjaw. She stepped on a nail a few days ago.

ILLINOIS FEDERATION OF LABOR.

Bitter Resolution on the Hazelton Shooting Referred.
BLOOMINGTON, Ills., Sept. 15.—The Illinois Federation of Labor has referred a set of bitter resolutions, denouncing the killing of the Hazelton miners as a brutal slaughter, to a committee.

President Reiffler, in his annual address, said: "Just as long as labor must divide the products of its toil with those who control the opportunities to labor, just so long will millionaires and paupers alike exist in society. Superficial remedies are inadequate to subdue fundamental ills." He recommended the Federation to "take a bold and unequivocal stand in favor of the abolition of land monopoly by levying all taxes upon land values irrespective of improvements and in lieu of all other taxes."

SEARCHING FOR A PIN.

X Rays Used Daily To Locate the Brass In a Child's Body.

WHITE COTTAGE, O., Sept. 15.—Frank
Desselm, aged 2, pulled a pin from his mother's dress several days ago and swallowed it. It had an ill effect on him, and the X rays were turned on to him in a vain quest for the pin. Up to date it has not been found, but the infant will be X rayed daily until the piece of iron is located. He is being treated at Columbus.

From the other indications, Dr. Harvey Reed and Dr. Early, who have been handling the case, fear that the pin has lodged in the rear of the duct which leads to the stomach. In that case little Frank's back will have to be cut open to get at it.

INVESTIGATING THE PRISON.

Inspector Lester Examining the Books of Frankfort Penitentiary.

FRANKFORT, Ky., Sept. 15.—The governor evidently thinks that there is something wrong with the Frankfort penitentiary and its chair contract. He has issued an order to the state inspector to at once proceed to examine the penitentiary management, books and accounts and to employ an expert accountant to assist him. In speaking of the matter the governor said: "I don't think there is anything wrong, but if there is I want to know it, and know it at once."

Azaraga Denies the Report.

MADRID, Sept. 14.—General Azaraga, premier and minister of war, denies that the Cuban insurgents have captured San Andres and Consolation or either of them. He also denies that General Laque has been compelled to retire from Manzanillo.

CHANGED THE COLOR.

Postage Stamps to Be Printed in Green Instead of Carmine.

WASHINGTON, Sept. 15.—The secretary of the treasury and the postmaster general, after consultation with the president, have decided to change the color of the current 2-cent postage stamp from carmine to green of the shade now used on government notes. The 10-cent postage stamp, which is now printed in green will be changed to some other color, possibly carmine. It is thought that green is a more desirable color than carmine, besides saving the government about \$10,000 in the difference in cost between the two inks.

SALISBURY WINS.

Ambassadors Finally Agree to His Proposition on Greco-Turkish Negotiations.
CONSTANTINOPLE, Sept. 15.—At a meeting of the ambassadors of the powers an understanding was reached on the preliminaries of the Greco-Turkish treaty of peace, based upon the Marquis of Salisbury's proposals. These facts have been communicated to the Turkish minister for foreign affairs, Tewfik Pasha, who has been requested to meet the ambassadors at Tophane palace today to resume the formal negotiations for peace.

JUDGMENT FOR PLAINTIFF.

Mrs. Craven Defeated in Her Efforts to Get a Slice of the Fair Estate.

SAN FRANCISCO, Sept. 15.—The famous cases of Angus vs. Craven, by which the executors and heirs of the late Senator James G. Fair sought to quiet the title of Mrs. Nettie B. Craven, a school-teacher of this city, to two pieces of property on Sanson and Mission streets, valued at \$1,000,000, was finally decided for the plaintiff and the intervenors yesterday by Superior Judge Slack, sitting as a chancellor in equity.

Pension Decision.

WASHINGTON, Sept. 15.—Assistant Secretary of the Interior Webster Davis has rendered a decision in the claim of Mark Randall, late of Company B, Second U. S. C. A. L., holding that in all cases where there has been an erroneous or over payment of pension money as a result of fraud upon the government or through a mistake of fact, the same may be recovered by way of reimbursement by withholding any accruing pension until the wrongful payment is made good.

Died Aged 103.

BALTIMORE, Sept. 15.—Miss Sarah Randall died yesterday on the eve of the 103rd anniversary of her birth from the effects of a paralytic stroke. Miss Randall was born in Frederick county, Md., but spent most of her long life in Baltimore. She claimed to have been a relative of the late Samuel J. Randall of Philadelphia. At the time of her death Miss Randall was an inmate of the Methodist Episcopal home for the aged.

Sixty-Eight Miles an Hour.

KANSAS CITY, Sept. 15.—A new western record in fast time was made on the Missouri Pacific road yesterday when a new engine, just from the road's own shops made the remarkable speed of 68 miles an hour between here and Sedalia. The speed was only kept up for a short while, but it showed what the new locomotive could do. Considering grades and curves, the performance was even more wonderful.

PORT ARTHUR STORM

Half the Town Reported Demolished by the Recent Hurricane.

PEOPLE ARE PANIC STRICKEN

Four Drowned and Five Killed—Many Miraculous Escapes—Several Injured at Winnie, a Nearby Town—Eight Miles of Railway Washed Out—Damage to Crops Is Terrible.

GALVESTON, Sept. 15.—Later and more accurate reports received from points in the storm belt show that the reports that reached Galveston were greatly exaggerated. At Sabine Pass the following are reported as drowned: Captain Greene Moore, Captain L. L. Bettis, Captain George Wolford and Engineer William Ratcliff. These men were all on vessels which were sunk and have not been accounted for, and they are believed to have been drowned.

Along the Gulf and Interstate railway several were injured, but none were killed. At Winnie, George Barber was badly cut about the knees and wrist; Maud Williams had her feet and hands injured; Mrs. Barber's limbs were severely injured and people in the vicinity of Winnie were generally injured, but none killed.

Port Arthur suffered the brunt of the blast and half of the town is estimated to have been destroyed or badly injured. The wind came up about 4 o'clock and rapidly increased in violence, blowing from the south and gradually working into the east. A number of people sought shelter from the storm in the roundhouse and railroad and several were severely injured and two killed. Under a restaurant, a small frame structure, three more bodies were found. The wind blew with hurricane force about two hours. There were many miraculous escapes and those who were killed were caught under the ruins of the roundhouse and the small restaurant.

At Sabine Pass the greatest damage was done and the only loss of life was among the shipping. There was no loss of life in either old or new Sabine proper.

The Tugs Fannine, Guilote and John P. Smith were sunk and the Norwegian steamship Ceres, 800 tons was torn from her moorings at the wharf and blown five miles north where she grounded in a few feet of water. When she parted her lines the captain and crew escaped ashore and the vessel was left to the caprice of the wind.

At the new town several residences were blown from their foundations and all hastily constructed buildings were demolished. No one in the town was seriously injured, the casualty being confined to the shipping. Eight miles of the Texas and Sabine railway north of Sabine Pass was washed away. Twenty-five hundred feet of the export pier at Port Arthur is destroyed and the people of that town are so terror stricken that they are leaving it as fast as they can get away.

The damage in the country to buildings and crops is severe. The losses to the farmers in Jefferson county alone will approximate \$150,000, which they would have had in hand within 30 days had the storm been delayed that long, but now the crops are completely ruined.

Burying the Dead.

HOUSTON, Sept. 15.—The funeral train bearing the bodies of the victims of the Port Arthur hurricane were taken to Beaumont late yesterday where they were interred. Every business house in the city was closed and the entire population turned out and joined the cavalcade to the cemetery.

SMALL RIOT.

MINERS STONED AND SHOTS FIRED—ONE MAN WILL PROBABLY DIE.

PITTSBURGH, Sept. 15.—The Darr mine on the Youghiogheny river, operated by Osborne & Saeger, of Cleveland, O., was the scene of a riot yesterday which will probably result in the death of at least one man. The machine miners started to work on Monday and yesterday a mob of diggers, who were opposed to the men working, gathered at the pit to give the workers a hot reception when they came out of the mine. As the miners began coming out they were stoned back into the pit and several shots were fired into the pit mouth after the retreating men. One man whose name cannot be learned, more daring than the rest, ventured into the opening and was stoned unmercifully. He will probably die from the effects of the abuse.

CHICAGO WHEAT MARKET.

December Takes a Rise but Declines Again at the Close.

CHICAGO, Sept. 15.—The opening in wheat yesterday was very strong. December opened at from 95½ to 95½ cents, and during the next half hour fluctuated between the starting quotations and 94½ cents. It started up again from the latter point and rose with the same aggressive persistency that has so frequently characterized it in the last three months, December getting up to 96½ to 96½ cents. The weakness of closing cables caused a reaction to 95½ cents and when the large visible increase was made known a further decline to 94½ cents ensued. The market closed at 94½ to 94½ cents for December.

Train Crew Held Responsible.

CHILLICOTHE, O., Sept. 15.—Coroner Hiram Streitenberger has completed his investigation of the wreck on the Cincinnati, Hamilton and Dayton, where one man was killed and has made out his verdict. He holds the crew of the freight train into which the passenger crashed responsible through their negligence in failing to close a switch.

John P. McLean's Great Newspaper.

Without a single exception, there is no paper in the United States that has done more for the people than the Cincinnati Enquirer. It is a more successful publisher than any other paper in the United States. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and having appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yields to Electric Bitters. 50c. and \$1.00 per bottle at W. F. Peter's drug store.

THE BLUFF FAILED.

BUT IT BROUGHT ABOUT THE DESIRED RESULT AT LAST.

The College Society Chapter That Was In Bad Repute—A Medal That Contained an Inscription—Poker and Bottled Refreshments.

"It frequently happens," said a college graduate, "that different chapters of the same Greek letter fraternity, situated at different colleges, develop different characteristics. All of these societies, I think, are organized to encourage literary pursuits. I mean that's what the constitutions say. As a matter of fact, the literary element is rather the least of it in most cases in the stress of having a jolly good time. When convention time comes round, however, the chapters that have maintained their literary quality come to the fore, and the others have to put up a bluff by sending as delegates men who have high standing as scholars or else take a very back seat.

"The chapter to which I belonged was located at a country college, and in some way or other it had acquired a reputation in the fraternity of being essentially nonliterary, and, in fact, rather sporty in character. This was so much the case that in my junior year there was a movement on foot to expel or suspend our chapter from the fraternity. We weren't very strong in high stand men and couldn't even scare up two to go as delegates to the convention. Another man and myself were finally selected for this function as the most unsophisticated looking members of the chapter.

"As usual in such cases, a special train was made up to start from the westernmost chapter and to pick up as many of the other delegations as could be arranged on its way to the convention city. We were among the more remote chapters, and when we boarded the train there was only one other delegation on board, composed of three members. We sighed when we saw big boxes of bottled beer in the freight car and reflected on the elaborate instructions we had received from our constituents. We were primed for the occasion. My companion, Forbes, had a classical volume in each side pocket of his coat and there were ink stains on his fingers. I had borrowed from a classmate a medal given for scholarship, and this I had rather ostentatiously hung on my watch chain.

"We soon made the acquaintance of the other three delegates and joined them in their stateroom. Before long they proposed a game of poker, and one of them produced a pack of cards. Forbes said he didn't play, retired to a corner, pulled out a copy of Gladstone's 'Landmarks of Homeric Study' and after gazing thoughtfully out of the window for a moment or two apparently became absorbed in it. I admired his conception of the part, but I couldn't bring myself to break up the game, and that's what it meant, for everybody knows there's no fun in three handed poker. Besides, there were only three delegates on the train to witness my play. I said I didn't play, but had seen the game and thought it looked interesting. I was willing to learn.

"When we got started, there was a demand for a buck, and I unobtrusively slipped the medal and dropped it into the pot as a good means of calling attention to it. Everything went on swimmingly for awhile. I had outrageous luck and won pot after pot, so they were confirmed in the idea that I was a beginner. After awhile one of the other delegates got away with a jack pot, and while he was waiting for the cards to be dealt he picked up the medal and glanced curiously at the obverse side. I hadn't examined it particularly, but I found out afterward that it bore this most inscribed: 'Garrett J. Gardner, Weymouth University, Class of '87.'"

"The delegate started and looked at me with a glance that was first mystified and then suspicious.

"I beg your pardon, Brother Gardner," he said, with a touch of sarcasm. "I thought you said your name was Hawkins and we've all been calling you that right along."

"There was a smothered guffaw from behind the 'Landmarks of Homeric Study,' and I saw the jig was up. We made a clean breast of it, and Forbes sat into the game, making it five handed, which, of course, is the ideal game. We didn't lose any time sending forward for a consignment of that bottled beer, and the floor was strewn with dead Indians when the train filled up with other delegates, and they crowded around to watch the game.

"Our elaborate bluff hadn't worked, and the convention opened with our chapter in just as bad odor as before, but we had made staunch supporters of the three delegates and some other kindred spirits who had joined us on the train. They all went to work like beavers, and when our case was taken up in the convention we had a good working majority which sustained our chapter with a whoop."—New York Sun.

Must Have Been Very Bad.

In this day of slang and slipshod English it is quite refreshing to find one home in which our mother tongue is appreciated and sins against its purity duly resented.

"That there is at least one such was made evident in a quarrel which took place in a literary household between the two youngest inmates—a quarrel, like most childish differences, soon over, but fierce while it lasted.

When his wrath had reached its height, the small son of the house, quivering with anger, sought for language to denounce his sister, who had been the aggressor.

"You bad," he burst forth, stamping a stubby shoe; "you bad, you bad!" Words failed him. Then with a flash of truly literary inspiration he concluded: "You bad grammar, you!"—Youth's Companion.

To Care For Visitors.

From the many inquiries received regarding the Free Street Fair it is presumed that during the Fair week Seymour will be visited by a vast concourse of people.

As the hotels will be unable to accommodate all the visitors with lodging it is expedient that some other arrangement be made for the entertainment of those who remain with us over night.

Any citizen who is prepared to lodge one or more persons will please report to the management, who will take name and address and make arrangements accordingly.

The Klondyke Country and Colorado.

Are now the two principal gold mining fields in the world. We can give you information about both, but as the Klondyke Country will be impenetrable until next summer, why not go to Colorado this fall and look over the golden opportunities of that state.

It is cheaper and easier to go to Colorado, and we will venture dollars to doughnuts that more net money can be made in Colorado in twelve months, with less capital, than in the outskirts of the Arctic Circle during the same period, at forty times the expense.

A New Through Passenger Route for Colorado, Utah and California.

The Chicago Times-Herald of August 27th says that on September 12 the new traffic alliance between the Chicago, Milwaukee & St. Paul railway and the Chicago, Rock Island & Pacific railway goes into effect, and on that date the former will send its first Denver sleeper out of Chicago. This will be attached to its regular night train for Omaha, and will be delivered there to the Rock Island. On October 2 the tourist car route over these two lines, the Colorado Midland and Southern Pacific will be inaugurated. Tourist cars will be run once a week between Chicago and San Francisco.

NEW CASES OF FEVER

Yellow Jack Is Gradually Gaining Ground in the South.

OLD PEOPLE BEING ATTACKED

French Market at New Orleans Now In the Infected District—People Leaving Jackson, Miss., by the Score—More Patients Reported at Mobile and the Railroads Doing Good Business.

NEW ORLEANS, Sept. 15.—The books of the board of health last night showed the following developments in the yellow fever situation. Yesterday there had been reported to the board for investigation 26 cases which the attending physicians considered suspicious. Of these 13 cases had been found suffering with a harmless fever, five cases were regarded as suspicious, but necessary to be further investigated before a definite report could be made upon them; there were no reports as to four cases and four cases had been pronounced genuine yellow fever. The most serious of the cases is located in the neighborhood of the French market. The locality is far from a cleanly one, is populated by a poorer class of people, many of whom are foreigners and might be considered dangerous ground. Officers from the police force were detailed to take charge of the neighborhood.

President Olliphant of the board of health, said: "I repeat what I have said to you heretofore. Of course it is an unpleasant task to have to report the appearance of new cases, but the moment has not yet come when we should throw up our hands and admit that the fever is in a fair way to conquer the city. It will not be surprising and we should not be disappointed if other cases appear daily for some time, how many I am not prepared to say. That is, of course, to be expected from the extended intercourse that has existed between the gulf coast and the infected places on which the character of the fever at Ocean Springs was finally established."

One of the features developed during the day is that people of mature age have been attacked. Heretofore the case has been confined principally to children of tender age and boys and girls not yet grown to manhood and womanhood. Two of the late cases show that older people have been attacked.

The Louisville and Nashville ran a train to Atlanta yesterday to accommodate the people on the coast in getting away from the infected district. Twenty ladies and gentlemen from Biloxi left this city for that point.

CONDITION AT MOBILE.

Disease Spreading and People Leaving For Points of Safety.

MOBILE, Ala., Sept. 15.—Three new cases of yellow fever were officially announced last night by the board of health. The announcement caused much more alarm than did the discovery of the first case which was regarded as sporadic. The people who can be leaving for points of safety. Some \$700 worth of tickets to Atlanta were sold yesterday by the Louisville and Nashville railroad and the trains are leaving crowded. The same is true of the trains on the Mobile and Ohio railroad. Dr. Guiteras has left for Edwards, Miss., ordered thither to investigate the disease prevailing there. He declined to tell what he had first to report to the surgeon general at Washington. When asked upon what he based his telegram to the surgeon general that there would be a spread of the disease here he said that the city had a long immunity from the disease and there is much material for it to feed upon.

Fleeing From Jackson.

JACKSON, Miss., Sept. 15.—This is another day of excitement and anxiety to the people of Jackson. The general movement of the people to the surrounding country commenced yesterday and has continued throughout the night and today. This movement is not restricted to any class of people, but is participated in by rich and poor. The city is now surrounded on all sides by an armed guard and the quarantine rules are enforced with great strictness. The principal cause of alarm to the people of Jackson came from Edwards, Miss., 25 miles distant, where there are now 35 cases of dengue, two cases of yellow fever and three suspects.

Charleston, S. C., Takes Action.

CHARLESTON, S. C., Sept. 15.—The board of health of Charleston has established a strict quarantine against New Orleans, Mobile and the other fever-infected cities and districts. Passengers, household goods and other classes of freight from those places will not be allowed to come into the city in the future.

Ocean Springs.

OCEAN SPRINGS, Miss., Sept. 15.—Dr.

was one of the best of attention and it is hoped he will pull through in a few days. A number of immigrants are to be sent to Cincinnati in a special car.

Only Three Have Escaped at Barclay. BARCLAY, Miss., Sept. 15.—Another case of yellow fever was reported last night. One of a population of 25 only three have escaped the sickness and the percentage of death has been what is usual in yellow fever cases.

PRESIDENT ANDREWS.

He Decides to Remain With Brown University—Students Celebrate the Event. PROVIDENCE, Sept. 15.—E. Benjamin Andrews has withdrawn his resignation as president of Brown University. Last night the students celebrated the event, and the university opened today with renewed activity and vigor.

Died From Lockjaw. PADUCAH, Ky., Sept. 15.—Allie Tidwell, aged 18 years, of this city, who recently joined French's "New Sensation," is dead at Mound City, Ill., from lockjaw. She stepped on a nail a few days ago.

ILLINOIS FEDERATION OF LABOR.

Bitter Resolution on the Hazelton Shooting Referred.

BLOOMINGTON, Ill., Sept. 15.—The Illinois Federation of Labor has referred a set of bitter resolutions, denouncing the killing of the Hazelton miners as brutal slaughter, to a committee.

President Reiffler, in his annual address, said: "Just as long as labor must divide the products of its toil with those who control the opportunities to labor, just so long will millionaires and paupers alike exist in society. Superficial remedies are inadequate to subvert fundamental ills." He recommended the Federation to "take a bold and unequivocal stand in favor of the abolition of land monopoly by levying all taxes upon land values irrespective of improvements and in lieu of all other taxes."

SEARCHING FOR A PIN.

X Rays Used Daily To Locate the Brass In a Child's Body.

WHITE COTTAGE, O., Sept. 15.—Frank Dessel, aged 3, pulled a pin from his mother's dress several days ago and swallowed it. It had an ill effect on him, and the X rays were turned on him in a vain quest for the pin. Up to date it has not been found, but the infant will be X rayed daily until the piece of brass is located. He is being treated at Columbus.

From the other indications, Dr. Harvey Reed and Dr. Early, who have been handling the case, fear that the pin has lodged in the rear of the duct which leads to the stomach. In that case little Frank's back will have to be cut open to get it.

INVESTIGATING THE PRISON.

Inspector Lester Examining the Books of Frankfort Penitentiary.

FRANKFORT, Ky., Sept. 15.—The governor evidently thinks that there is something wrong with the Frankfort penitentiary and its chair contract. He has issued an order to the state inspector to at once proceed to examine the penitentiary management, books and accounts and to employ an expert accountant to assist him. In speaking of the matter the governor said: "I don't think there is anything wrong, but if there is I want to know it, and know it at once."

Azarraga Denies the Report.

MADRID, Sept. 14.—General Azarraga, premier and minister of war, denies that the Cuban insurgents have captured San Andres and Cienfuegos or either of them. He also denies that General Luque has been compelled to retire on Manzanillo.

CHANGED THE COLOR.

Postage Stamps to Be Printed in Green Instead of Carmine.

WASHINGTON, Sept. 15.—The secretary of the treasury and the postmaster general, after consultation with the president, have decided to change the color of the current 2-cent postage stamp from carmine to green of the shade now used on government notes. The 10-cent postage stamp, which is now printed in green will be changed to some other color, possible carmine. It is thought that green is a more desirable color than carmine, besides saving the government about \$10,000 in the difference in cost between the two inks.

SALISBURY WINS.

Ambassadors Finally Agree to His Proposition on Greco-Turkish Negotiations. CONSTANTINOPLE, Sept. 15.—At a meeting of the ambassadors of the powers an understanding was reached on the preliminaries of the Greco-Turkish treaty of peace, based upon the Marquis of Salisbury's proposals. These facts have been communicated to the Turkish minister for foreign affairs, Teyfik Pasha, who has been requested to meet the ambassadors at Tophane palace to-day to resume the formal negotiations for peace.

JUDGMENT FOR PLAINTIFF.

Mrs. Craven Defeated in Her Efforts to Get a Slice of the Fair Estate. SAN FRANCISCO, Sept. 15.—The famous cases of Angus vs. Craven, by which the executors and heirs of the late Senator James G. Fair sought to quiet the title of Mrs. Nettie B. Craven, a school-teacher of this city, to two pieces of property on Sanson and Mission streets, valued at \$1,000,000, was finally decided for the plaintiff and the intervenors yesterday by Superior Judge Slack, sitting as a chancellor in equity.

Pension Decision.

WASHINGTON, Sept. 15.—Assistant Secretary of the Interior Webster Davis has rendered a decision in the claim of Mark Sanford, late of Company B, Second U. S. C. I. A., holding that in all cases where there has been an erroneous or over payment of pension money as a result of fraud upon the government or through a mistake of fact, the same may be recovered by way of reimbursement by withholding any accruing pension until the wrongful payment is made good.

Died Aged 103.

BALTIMORE, Sept. 15.—Miss Sarah Randall died yesterday on the eve of the 103rd anniversary of her birth from the effects of a paralytic stroke. Miss Randall was born in Frederick county, Md., but spent most of her life in Baltimore. She claimed to have been a relative of the late Samuel J. Randall of Philadelphia. At the time of her death Miss Randall was an inmate of the Methodist Episcopal home for the aged.

Sixty-Eight Miles an Hour.

KANSAS CITY, Sept. 15.—A new western record in fast time was made on the Missouri Pacific road yesterday when a new engine, just from the road's new shops made the remarkable speed of 68 miles an hour between here and Sedalia. The speed was only kept up for a short while, but it showed what the new locomotive could do. Considering grades and curves, the performance was even more wonderful.

TELEGRAPHIC BRIEVITIES.

Miners Stoned and Shots Fired—One Man Wounded and Probably Die.

PITTSBURGH, Sept. 15.—The Dart mine on the Youghiogheny river, operated by Osborne & Saeger, of Cleveland, O., was the scene of a riot yesterday which will probably result in the death of at least one man. The machine miners started to work on Monday and yesterday a mob of diggers, who were opposed to the men working, gathered at the pit to give the workers a hot reception when they came out of the mine. As the miners began coming out they were stoned back into the pit and several shots were fired into the pit mouth after the retreating men. One man whose name cannot be learned, more daring than the rest, ventured into the opening and was stoned unmercifully. He will probably die from the effects of the abuse.

CHICAGO WHEAT MARKET.

December Takes a Rise but Declines Again at the Close.

CHICAGO, Sept. 15.—The opening in wheat yesterday was very strong. December opened at 95 1/2, closed at 95 3/4, and during the next hour fluctuated between the starting quotations and 94 1/2 cents. It started up again from the latter point and rose with the same aggressive persistency that has so frequently characterized it in the last three months, December getting up to 96 1/2 cents. The weakness of closing cables caused a reaction to 95 1/2 cents and when the large visible decline to 94 1/2 cents caused a further increase was made known a further decline to 94 1/2 cents caused. The market closed at 94 1/2 cents for December.

Train Crew Held Responsible.

CHILLICOTHE, O., Sept. 15.—Coroner Hiram Streitenberger has completed his investigation of the wreck on the Cincinnati, Hamilton and Dayton, where one man was killed and has made out his verdict. He holds the crew of the freight train into which the passenger crashed responsible through their negligence in failing to close a switch.

PORT ARTHUR STORM

Half the Town Reported Demolished by the Recent Hurricane.

PEOPLE ARE PANIC STRICKEN

Four Drowned and Five Killed—Many Miraculous Escapes—Several Injured at Winnie, a Nearby Town—Eight Miles of Railway Washed Out—Damage to Crops Is Terrible.

GALVESTON, Sept. 15.—Later and more accurate reports received from points in the storm belt show that the reports that reached Galveston were greatly exaggerated. At Sabine Pass the following are reported as drowned: Captain Greene Moore, Captain L. L. Bettis, Captain George Wolford and Engineer William Ratcliff. These men were all on vessels which were sunk and have not been accounted for, and they are believed to have been drowned.

Along the Gulf and Interstate railway several were injured, but none were killed. At Winnie, George Barber was badly cut about the knees and wrist; Mand Williams had her feet and hands injured; Mrs. Barber's limbs were severely injured and people in the vicinity of Winnie were generally injured, but none killed.

Port Arthur suffered the brunt of the blast and half of the town is estimated to have been destroyed or badly injured. The wind came up about 4 o'clock and rapidly increased in violence, blowing from the south and gradually working into the east. A number of people sought shelter from the storm in the roundhouse of the railroad and several were severely injured and two killed. Under a restaurant, a small frame structure, three more bodies were found. The wind blew with hurricane force about two hours. There were many miraculous escapes and those who were killed were caught under the ruins of the roundhouse and the small restaurant.

At Sabine Pass the greatest damage was done and the only loss of life was among the shipping. There was no loss of life in either old or new Sabine proper. The tugs Famine, Guillote and John P. Smith were sunk and the Norwegian steamship Ceres, 800 tons, was torn from her moorings at the wharf and blown five miles north where she grounded in a few feet of water. When she parted her lines the captain and crew escaped ashore and the vessel was left to the caprice of the wind.

At the new town several residences were blown from their foundations and all hastily constructed buildings were demolished. No one in the town was seriously injured, the casualty being confined to the shipping. Eight miles of the Texas and Sabine railway north of Sabine Pass was washed away. Twenty-five hundred feet of the export pier at Port Arthur is destroyed and the people of that town are so terror stricken that they are leaving it as fast as they can get away.

The damage in the country to buildings and crops is severe. The losses to the farmers in Jefferson county alone will approximate \$150,000, which they would have had in hand within 30 days had the storm been delayed that long, but now the crops are completely ruined.

Burying the Dead.

HOUSTON, Sept. 15.—The funeral train bearing the bodies of the victims of the Port Arthur hurricane were taken to Beaumont yesterday where they were interred. Every business house in the city was closed yesterday and the entire population turned out and joined the cavalcade to the cemetery.

Georgia's Fair Authoress

THE NAME of Mrs. J. E. Harwell, (nee Julia Emma Fleming) is a familiar one in the state of Georgia. She writes: "It is with pleasure that I express my gratitude for the wonderful benefits I have received from Dr. Miles' Restorative Remedies, especially the Nervine, the Nerve and Liver Pills, New Heart Cure and Anti-Pain Pills. Actual experience has taught me their great worth. No family should be without them. They have fully restored me from a complication of disorders chiefly affecting the heart, nervous system and kidneys. When I travel I always take one of your Anti-Pain Pills before entering the cars and thus prevent swimming of the head and nausea, to which I have been subject for several years."

Dr. Miles' Restorative Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerve sent free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind.

Insure your business and other property in the Ohio Farmers Insurance Co. It is a strong, reliable, safe company. Cash assets over \$1,000,000. C. A. DAY, Agt. Pfaffenberger Block.

SURVIVORS OF THE 82nd IND.

Their Annual Reunion in this City One of Pleasure and Interest.

Most of the surviving members of the 82nd Ind. who have attended their annual reunion in this city have returned to their homes. Barring the extremely hot weather those who were present say it was one of the most pleasant reunions they have ever held.

At their meeting Tuesday afternoon Dr. W. C. Hall, of Franklin, was elected President of the Association; Comrade L. A. Neal, of Dupont, Senior Vice-President; Dr. K. D. Hawley, of Columbus, Junior Vice-President; Alph G. Hunter, Versailles, Secretary.

The meeting next year will be held at Chickamauga, on 19th and 20th of September. Capt. Americus Wheaton, of Louisville, was appointed a committee on transportation.

The campfire at Army Hall last night was attended by members of the 82d and other Union soldiers. A welcome address by Mayor Balsley was full of assurance that the visiting soldiers were welcome in Seymour. Dr. Hall responded to the Mayor's words of welcome.

Interesting addresses and talks were made by Comrades Jones, McNaughton, DeHoney and Rev. J. W. Clevenger.

At the meeting this forenoon at the G. A. R. hall the roster of members of the Association were gone over and changes noted. Peter Platter, the photographer, called at the hall and asked the privilege of photographing the members of the 82nd present.

After extending a vote of thanks to the citizens of Seymour for the hospitality shown them they adjourned to meet at Chickamauga next year.

THOSE PRESENT AT THE MEETING: Capt. A. Whedon, Louisville.

J. D. Prosser, Edinburg. Noah L. Reynolds, Eureka, Ill. J. F. Jones, Scipio.

MARRIED.

Logan Robinson and Miss Emma Singer, both highly respected young people of Driftwood township, were united in marriage Sunday, September 12, 1897, at the home of the bride's parents, Morse, Sigg and wife, with Rev. J. N. Thompson the nuptial knot.

Mr. Elmer Shepard and Miss Minnetta J. Benton, who are among Brownstown's most popular young people, were united in marriage at 1 o'clock Wednesday afternoon, September 15, 1897, at the home of the bride's parents, Coon Benton and wife, with Rev. Thompson officiating. That their wedded life may be long and pleasant is the wish of their host of friends.

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: Dr. King's New Discovery is all that is claimed for it. It never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's drug store.

FIVE MEN LYNCHED.

THEIR BODIES SWING IN THE EARLY MORNING AIR.

Ripley County Citizens Take the Law Into Their Own Hands.

Early this morning five men, Lyle Levi, Bert Andrews, Wm. Jenkins, Henry Shuter and Clifford Gordon were taken from the county jail at Versailles and lynched by a mob.

Lyle Levi was a well-to-do farmer and an old soldier, aged about 55 years. His crime is reported to be the hiring of his horse and buggy to the others last Saturday night and he had been arrested on suspicion of his being their accomplice.

Bert Andrews was a cabinet maker in a furniture factory at O good Wm Jenkins was employed in a marble shop Henry Shuter is the son of a travelling man for the Deering implements and is known in Seymour. Clifford Gordon is a day laborer.

For some time there has been a great deal of stealing and many petty depredations in the vicinity of Osgood and Versailles. The officers had almost entrapped Pete Hostetter, a prize fighter and member of the gang. In order to save himself he agreed to entrap the others in the crowd. Accordingly the plan was laid to rob Wooley Bros' general merchandise store at Corcoran, south of Versailles last Saturday evening. The officers were notified and caught them in the act.

A lively battle ensued in which Sheriff Bushing was shot in the hand. The robbers were arrested and put in the county jail to await trial. Here they were found by the mob, which took them out this morning and hanged them.

The bodies of the men were riddled with bullets and Levi is said to have been killed before the mob was able to place the rope about his neck.

BUSINESS NOTES.

O. W. Tuders and wife, of Louisville, came here last evening on business.

George F. Turmail, of Vallonia, came up last evening on business.

Eli Marquart, of Jonesville, shipped fat hogs to Cincinnati from here yesterday.

David Montgomery & Co. last night shipped a car of extra heavy fat hogs to Cincinnati.

A very large amount of white oak logs came here the past week for the Bard Saw Works.

Repairs at the Hominy Mill have been completed and the plant resumed operation this morning.

John Garvey and wife, of Honeytown, were in the city this morning shopping and went to the state fair.

Wheat is selling at ninety cents and corn is selling at twenty-five cents per bushel in this market today.

Bud Hazard, of Redding township, yesterday shipped a car of fine watermelons to Rushville and a car to Marion.

Cordes Bros. & Co. are putting a slate roof on the large brick residence of William Kasting, south of the city.

David Easter, a good farmer east of Reddington, threshed thirty six bushels of clover seed from nine acres of land.

A large amount of nice clear ash timber is being delivered to the Hub and Spoke Factory from Driftwood township farmers.

The Bell's ford bridge was completed last evening and it is now in condition to cross. The approaches will be put in at once.

E. T. Johnson last evening finished loading sixteen cars of nice white oak logs at Vallonia for the Band Saw Works here.

Ebaugh and Johnson, of the tile and sawmill are delivering material on the Klinge farm near Dudleytown for the erection of a tenement house.

William Patrick, who has charge of the Cummings farm three miles east of the county seat brought his crop of clover seed here Tuesday and sold it to J. H. Hodapp.

The State Fair Attendance.

The attendance at the state fair yesterday was unusually large for the first day. The crowd came chiefly from Indianapolis, yet all parts of the state were represented. The attendance during the remainder of the week will be enormous, judging from present indications. All the railroads are taking large numbers of people to Indianapolis.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sick stomach means sick man (or woman). Why not be well?

Sick stomach comes from poor food poor nourishment, means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and soon makes you well and strong again.

The more you take the less you will feel of your stomach.

Seymour REPUBLICAN.

John R. McLean's Great Newspaper.

Without a single exception, there beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; as a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: 'The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as of greater magnitude.

MINERAL WATERS.

Why and How They Benefit Those That Drink Them.

When a patient reaches a mineral water health resort, he is examined by the resident physician and ordered to drink certain quantities of the water at certain times during the day. These are increased from day to day until the maximum quantity needed is reached. He is ordered to drink one or two glasses upon rising, two or three glasses between breakfast and dinner, the same quantity in the afternoon and a couple of glasses before going to bed. The patient is urged to take it whether he wants it or not. He may say that he is not thirsty, but that makes no difference; he must take it as a medicine. The quantity is increased until we have known 30 glasses per day to be taken.

A part of the benefit derived is because of the rest and change of scene. A part, perhaps, is from the small quantity of the salts and other bases contained in these waters (we are not speaking of cathartic or chalybeate waters), but the benefit from this source is very slight. The secret of the cure is in the quantity of water taken. If the water be pure, free from organic matter, and taken in sufficient quantity, the results will be substantially the same, regardless of the "traces" of lithia and small quantities of sodium chloride and other salts. You can perform these cures at home with the ordinary drinking water, if of good quality, if you will require the patient to take it in the same quantity as at the springs. It is very easy to add lithia if desired, but you must not lose sight of the fact that the quantity of water (not lithia) taken is the important thing. It acts by flooding the kidneys, by washing out the bladder with a copious, bland and dilute urine, by unclogging the liver and clearing the brain. The patient feels better from day to day; he is better. Irritable bladder is relieved, the kidneys act freely—are "washed out"—and many effete substances are carried out with the flood. This clears the way for the liver to act freely and normally, for there is an intimate relation between the liver and kidneys.—New York Ledger.

The oldest shaped county among the 3,000 which go to make up the separate divisions of the various states is Warren county, Tenn. It lies almost exactly in the geographical center of the state mentioned and is about as near a perfect circle as any division of land could possibly be. The circle would be perfect but for the fact that there is a short stretch of the northern boundary line which follows a small stream for a short distance. It is bounded by Cannon, DeKalb, Coffee, Grundy, Van Buren and White counties and is in no way remarkable except in shape.—St. Louis Republic.

GOVERNMENT CROP REPORT.

No Rain in Indiana During the Past Week.—Hot and Dry.

No rain fell anywhere in Indiana during the week. The nights were cool but the days were very hot. Corn ripened and dried fast; most is safe from frost now; early planted corn is being cut and put in shock; because of so much dry and warm weather just when rain was needed, late planted corn will yield a lighter crop. Much of the tobacco has been housed, but some has been "fired." Buckwheat is a fair crop, cutting has begun in the central portion; in some fields it did not fill well on account of the hot, dry weather. Millet is being cut and threshed. Beans are beginning to ripen and are in fair condition. Potatoes are poor; they are little, with but few in a hill. Sweet potatoes are not in good condition, except in the northern portion, where there are some good fields. Tomatoes are ripening, but the crop is not so good or abundant as last year. Cabbages are drying up, and worms injured them much. Garden truck is drying up much. Apples are still a fair crop in many orchards, and, in localities of the southern portion, there are many good peaches. Turnips are coming up badly. Early sown rye and wheat are coming up in some fields. Plowing is much delayed; the ground is too hard and dry and but little seeding has been done as the farmers are waiting for rain. Clover hulling continues everywhere, yielding good seed. Pasture is dry and stock water scarce, and stock is being fed on many farms.

THEIR QUEER WAY.

ACTORS AND SINGERS AND THEIR REMARKS ON THE CRITIC.

Callous Indifference or Ignorance the Commonest Refuge of the Artistic Nature. Several Cases Cited by the Innocent Reporter.

"There are many amusing things about the artistic temperament," said the innocent reporter, "but you have to know the disposition in order to tell how funny they really are. You must know enough not to believe them always and then through all your intercourse with the professionals there will flow an accompaniment of easy humor that gives acquaintance with these persons an added pleasure. One charming incident of this can always be found in their views of what the newspapers say about them. Mrs. James Brown Potter is the only woman I ever saw who talked frankly about that subject.

"So long as they don't ignore me," she said, "I don't care what they write. Let them say anything so long as they say it, but it would be horrible to be left alone."

"That was a very truthful statement of her own opinions and almost unparalleled in its frankness. Everybody knows that Mrs. Potter has never had very much to thank the newspapers for that was really pleasant, but she had plenty to be grateful for as long as she was willing they should print anything if it kept her in the public eye.

"Almost as genuine was a young American singer who came back here after she had made a debut and some little reputation in Europe. She was a pretty woman and she had a good voice, but she was unfortunate. Once she had a sore throat and another time she was out of condition for some other reason. At all events she was never in condition to do herself justice. So there was nothing pleasant that, even with the kindest intentions, the newspapers could say about the young woman. One night toward the close of the season she was in a grand tier box at the opera house. During one of the entr'actes she was walking about the foyer with a friend, and halted in front of the greenroom. 'What is that room?' her friend asked.

"Planting herself deliberately in front of the partly opened curtains, she said in a voice audible to every man in the room, 'Oh, that is the place they go to write, in the most disagreeable way they can, the most disagreeable things they can think of about you.' The younger singer was unjust, but she had no false vanity. She was willing to have it known that she read what the newspapers said about her. Her more illustrious colleagues are not always so willing to admit that.

"I have heard Mlle. Calve protest that she never saw any newspaper, but the Paris Figaro, and declare that she really had not the slightest idea what New York papers wrote about her. She said this one day while waiting outside of Maurice Grau's office at the Metropolitan, and then turning suddenly to a reporter standing near her asked if he was the man that wrote she had signed a contract to give some concerts at \$2,000 a night when she was really to receive \$2,200. The man did not understand French, so Mlle. Calve's companion translated the question into English. The man replied that he represented another newspaper, and when she turned this into French for Mlle. Calve she mentioned the name of the newspaper from which she had had translated the dreadfully erroneous paragraph which had led the public to believe that Mlle. Calve had consented to take \$200 less than she was to get.

"Mme. Eames has an indicated indifference for what the newspapers say which is sometimes a little bit difficult to reconcile with her intimate knowledge of what they publish about her. Mme. Melba is also familiar with them, and she is a little less averse to having that fact known than Mme. Eames is. It is well known that Mme. Nordica takes her press clippings with her, and she makes no bones of it. Jean de Reszke is a regular reader of what the newspapers have to say about him, and whatever he may think about it in reality, he never, but in one instance, took any notice of it. Plancon enjoys reading the agreeable things that are written about him and doesn't care who knows it. Only the women profess to be wholly ignorant of what the newspapers write.

"With the actresses the case is very much the same. The celebrated foreigners, according to their own accounts, are quite unacquainted with anything that the American press may write about them. Agnes Sorma said that she did not intend to read any of the criticisms of her work until she started home on the steamer. It didn't take a conversation of more than three minutes to show that she had a fairly accurate knowledge of everything that had been printed about her. It must have been some superior sort of clairvoyance that is possible only to the artistic temperament, for hadn't she said that none of them would be read until she had got on the steamer to go to Europe? Sarah Bernhardt has them all translated to her and accompanies the performance with more or less emphatic reflections on the intelligence of the writers who do not agree with her own ideas of what she does. It is said that the atmosphere of the Hoffman House was heavily charged with bromine for several days after Mme. Sarah had the New York accounts of her performance of 'Magda' read aloud to her in English. When the American actors read these unfavorable accounts of themselves, they are always able to tell how they came to be written. There is always some specific cause for everything unfavorable. Either they snubbed the writer accidentally or said something disagreeable about him to one of his friends. There is never any explanation beyond their bold truthfulness.—New York Sun.

The Klondyke Country and Colorado.

Are now the two principal gold mining fields in the world. We can give you information about both, but as the Klondyke Country will be impenetrable until next summer, why not go to Colorado this fall and look over the golden opportunities of that state.

It is cheaper and easier to go to Colorado, and we will venture dollars to doughnuts that more net money can be made in Colorado in twelve months, with less capital, than in the outskirts of the Arctic Circle during the same period at forty times the expense.

Ask the nearest agent for the price of tickets to Denver, Leadville or Cripple Creek, and tell him to send you via Chicago and Omaha over the Chicago, Milwaukee & St. Paul R'y. in the through sleeping car from Chicago to Denver.

A New Through Passenger Route for Colorado, Utah and California.

The Chicago Times-Herald of August 27th says that on September 12 the new traffic alliance between the Chicago, Milwaukee & St. Paul railway and the Chicago, Rock Island & Pacific railway goes into effect, and on that date the former will send its first Denver sleeper out of Chicago. This will be attached to its regular night train for Omaha, and will be delivered there to the Rock Island. On October 2 the tourist car route over these two lines, the Colorado Midland and Southern Pacific will be inaugurated. Tourist cars will be run once a week between Chicago and San Francisco.
